

# RCL use cases *for* librarians

**RCL simplifies library workflows—from collection assessment to instruction support.**

Explore how RCL helps librarians with:

- ✓ *Preparing accreditation reports*
- ✓ Managing new or interim subject duties
- ✓ Creating library guides

# RCL use case :: Preparing accreditation reports

---

Prepare documentation to support accreditation in a new or existing program area.

With RCL you can:

- demonstrate collection support,
- identify needed resources, and
- meet standards.

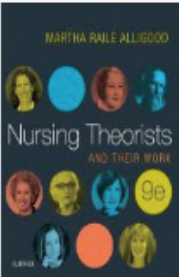

# Identify standard works by program area

Search the database by subject or LC class.

RCL provides an accreditation benchmark for titles based on:

- Current works *and* classics
- Breadth *and* depth
- Librarian-selected *and* peer-reviewed

Book

Note:   
**Add**

Use **Search Catalog** from the item record to find titles in your local collection directly from RCL using a Z39.50 or Predictable URL profile.

# Compare to the local collection :: export lists

The screenshot shows a library catalog interface. At the top left, a red box highlights the '+ Add to List' button. Below it, there are buttons for 'Clear Selected' and 'View Selected'. A 'Check All | Uncheck' link is also visible. The main content area displays a book titled 'Maternal Child Nursing Care' with its cover image and a list of metadata fields: Author, ISBN-10, ISBN-13, Item status, Format, Publisher, Publication Date, Price, Dewey, and Quantity. A modal dialog titled 'Add 25 item(s) to List' is open in the foreground. It has two radio buttons: 'Add to Existing List' (unselected) and 'Create New List' (selected). Below the radio buttons, it says 'Create New List' and 'Fields marked with \* are mandatory'. There is a 'Password Protected:' checkbox which is unchecked. A text input field for '\* List Name:' contains the text 'Core nursing titles rcl'. Below this is a larger text area for 'Comments:'. At the bottom of the dialog are two buttons: 'Create List' (green) and 'Cancel' (grey).

**Add to List** to create targeted title lists.

Export for easy collaboration, analysis, and reporting in Excel.

# Utilize direct purchase options

Find gaps in the collection?

Use RCL's **stock availability** and direct purchase options from library vendors and retailers to acquire new titles.

# Tips for success :: accreditation reports

---

- Provide quantitative data about title holdings and new acquisitions to support the program
- Highlight the use of RCL and other benchmarks for library collections
- Connect the collection to the curriculum: provide context for instruction services, faculty collaboration, outreach programs, and research support
